re:claim – Change is the constant is my first Graphic Novel it tells the story of three protagonists, how they experience *Die Rückeroberung* of Franz Hohler (Luchterhand Verlag, 1982) in present times. *Die Rückeroberung* is the red thread among I re-tell this story. It asks questions of solidarity and how we want to live, if the world constructs more crisis than utopias. How can we stand together, build our futures and don't leave the focus on the weakest amongst us.

What happens if wildlife and plants request urban spaces and the answer of politicians is repression, but they still lose control over the new inhabitants? Who is profiting and who is left behind? When wolf attacks and mutant plants become everyday life, how do our relationships change?

One thing is clear: no one will pay rent in this chaos anymore!
